

Melinda's leaves a lasting impression.

For hardcore believers in the balance of heat & flavor, Melinda's is the Original. Our distinct pepper sauces make their mark on the tip of your tongue and will have you telling everyone about the rush of fresh flavors and intense, aromatic heat. Since 1989, we've made the world's hottest pepper the hottest thing in the States – creating habanero sauces that people are passionate about.

Melinda's is made with premium, all-natural ingredients: fresh habanero peppers, carrots, onions, garlic, lime juice, attitude. When we fell like it, we'll mash in mango to mellow it, chipotle pepers to set a small smoky fire, or papayas for pure fruit flavor to balance against intense heat. **What we won't put in is artificial flavors or additives. Just pure ingredients. Pure flavors. Pure sensation that lingers and lasts.**

XXXX

Four X is the finest – made with select habaneros aged for an even more distinct flavor. Like fine wine, it comes in small batches and is released at a certain time of the year. While it's our special reserve, it's certainly not for the reserved. Item Number FG-1223

Red Savina

The hottest Melinda's made. Many say the best, too. We take the world's hottest habanero and mellow it the Melinda's way. Still, the Savina won't be tamed. Item Number FG-1193

Scotch Bonnet

Made with the habanero's Caribbean cousin, Melinda's Scotch Bonnet manages to be aggressive and meandering at the same time. Fruity papaya and mango play down the peppers, while carrots, onions, juice and garlic provide the basic sense of balance. Item Number FG-1216

Chipotle

Our Chipotle sauce adds a dose of the smokey chipotle chile to the mix, bumping up all the flavors of our traditional Melinda's and making the whole thing slightly sizzling. Item Number FG-1175

Fire Roasted

A deeper, more expansive version of our traditional recipe. Slow roasted for extra heat, extra flavor, bigger, bolder impressions. Item Number FG-1194

Garlic

Even our mild is wild. Our Garlic sauce accentuates the flavor, while providing a more mild heat level, making it an ideal part of sauces, marinades, and many other dishes. Item Number FG-1184

Jalapéno

Fresh and furious, our Jalapeno sauce offers a mild heat with a crisp, refreshing flavor. It's a perfectly natural combination that harmonizes the heat and flavor, making this sauce an ideal choice for enhancing (not overpowering) your food. Item Number FG-1225

Mango

Our Mango sauce blends in sweet, fresh mangoes to make an excellent marinade, dipping sauce or recipe ingredient. Sweet sunshine in a bottle. Item Number FG-1215

Amarillo

Our Amarillo is a hot mustard pepper sauce offering a classic West Indies taste just right for burgers, potato salads, salad dressings and more. Item Number FG-1199

The Original and the X's

This is where we began. We started off with two heat levels -- but some of our customers wanted more -- so we gave it to them. We did it in a way to preserve the balance of heat and flavor. That's why we stopped at XXXX. It is as much fire as we can pack in a bottle without destroying our world famous recipe.

The Habanero (*Capsicum chinense*) is the hottest chile pepper in the world, measuring between 200,000 and 300,000 Scoville Units (the hottest jalapeño measures only 5000 S. U.). Pepper connoisseurs the world over consider it to be the finest variety known to man.

Using only the highest quality ingredients, Melinda's blends fresh carrots, onions, garlic, and a hint of lime juice with the Habanero. The result is a pepper sauce that harmonizes heat and flavor without the overpowering pungency found in traditional vinegar-based hot sauces. Melinda's vegetable base allows you to spice your food without drowning out the original flavor.
